

# HANDING

## HAND IS ALWAYS DETERMINED FROM OUTSIDE OF DOOR

The OUTSIDE is the street side of an entrance door; or the corridor side of a room door.

The OUTSIDE of a communicating door is the side from which the hinges are not visible when the door is closed.

When the hinges are on the **right** and the door opens away from you, it is a right hand door. (Abbreviated RH)

When the hinges are on the **right** and the door opens toward you, it is a right hand reverse bevel door. (Abbreviated RHRB or RRB)

When the hinges are on the **left** and the door opens away from you, it is a left hand door. (Abbreviated LH)

When the hinges are on the **left** and the door opens toward you, it is a left hand reverse bevel door. (Abbreviated LHRB or LRB)
